PROFILE

Enthusiastic and detail-oriented recent computer science graduate with hands-on experience in Python programming and full stack development. Eager to apply my technical skills and knowledge to contribute to dynamic development projects. Committed to continuous learning and eager to grow as a Python Full Stack Developer in a challenging and supportive environment.

PROJECTS

BASIC CALCULATOR - HTML, CSS, JS

- Utilized HTML, CSS, and JavaScript to create visually appealing and responsive web pages that met client requirements.
- Coded using HTML, CSS, and JavaScript to develop features for both mobile and desktop platforms.
- Produced websites compatible with multiple browsers.

BUS TICKET BOOKING - PYTHON

- **User Registration and Login:** The program allows new users to register by entering their details, and then login using their username and password.
- **Bus Details Display:** It shows available bus options based on the journey date, including details such as route, boarding, and dropping points.
- **Ticket Booking:** Users can select a bus and book tickets, with the program calculating and displaying the total price including GST.
- **Ticket Confirmation:** After booking, users can confirm their tickets, and the program will acknowledge successful bookings or redirect for rebooking if needed.
